EDUCATION

University of Rochester

Bachelor of Science in Computational Biology, Bachelor of Arts in Data Science

Rochester, NY

Aug 2022 – May 2026

RELEVANT SKILLS

- **Programming Languages:** Java, Python, R, MATLAB, Bash, SAS, HTML, PHP, SQL
- **Technologies:** ImageJ, DeepLabCut, Git, Linux
- **Technical Frameworks:** NumPy, Pandas, Scikit-learn, SciPy, Matplotlib, Seaborn, PyTorch, TensorFlow, Spark
- **Lab Techniques:** PCR, qPCR, Gel Electrophoresis, Western Blotting, Cell Culture, Flow Cytometry, DNA Extraction, Immunohistochemistry, Tissue Sectioning, ELISA, Fluorescence Microscopy

HONORS & AWARDS

- Neurodiversity Alliance Scholarship Recipient (\$2,500/ year) April 2025
- 2nd Place Undergraduate Division, RAISE Informatics & Data Science Competition April 2025
- 1st Place Gold Award, Visualization Category, RIT ASA Datafest March 2025
- Out 4 Undergrad Life Sciences Conference Attendee September 2024
- 1st Place Winner, Biomedical Data Science Hackathon, Goergen Institute for Data Science August 2024
- Dean's List Honors 2022 – Present
- Dean's Scholarship Recipient August 2022

RESEARCH EXPERIENCE

University of Rochester School of Medicine & Dentistry (SMD)

Rochester, NY

Research Assistant, Dye Lab, Department of OB/GYN

September 2024 – Present

- Analyzing unstructured data from global COVID-19 studies and using machine learning models to provide qualitative classifications & quantitative metrics of self-identified race & ethnicity.
- Exploring the use of various Large Language Models (LLMs) & prompting methods to evaluate historical & contemporary oppression levels of individuals in various countries based on pre-determined criteria developed from anthropological & historical literature.

University of Rochester School of Medicine & Dentistry (SMD)

Rochester, NY

Research Assistant, Lee Lab, Center for Musculoskeletal Research (CMSR)

September 2024 – May 2025

- Worked on immuno-mechanobiology research characterizing macrophages and mechanosensitive ion channels in pre-clinical mice & porcine knee samples of osteoarthritis & rheumatoid arthritis.
- Performed tissue slicing & nerve extraction, alongside antibody staining, immunohistochemistry, and confocal & fluorescence microscopy, quantified cell & protein expression using ImageJ.

National Institute of Neurological Disorders & Stroke (NINDS)

Bethesda, MD

Research Intern, Wagner Lab, Neo-Cortex Cerebellum Circuitry Unit

June 2024 – August 2024

- Studied cerebellar learning mechanisms of long-term dopamine self-stimulation tasks in transgenic mice.
- Developed a computational model for real time video tracking & optogenetic stimulation during open field closed loop conditioned place preference (CPP) experiments using Bonsai visual reactive programming & Python, establishing CPP as an additional paradigm for studying compulsive-reward seeking behavior.
- Applied deep neural networks for pose estimation using DeepLabCut, wrote algorithms in Python to calculate estimated time elapsed for mice in optogenetic reward chambers during CPP trials and visualize motion tracking patterns over the experimental learning period.

National Cancer Institute (NCI)

Bethesda, MD

Research Intern, Vaccine Group, Center for Immuno-Oncology (CIO)

June 2023 – August 2023

- Investigated the effects of a novel triple combination therapy of a vaccine & two anti-cancer agents in treating HPV-related malignancies on immune protein levels within tumor microenvironment & periphery of pre-clinical murine mice models, as well measuring tumor immune cell populations and anti-tumor activity.
- Performed fluorescence assays on serum & tumor supernatant extracted from TC-1 injected syngeneic mice models, measured gene expression using q-PCR, ran statistical analysis of chemokine/cytokine levels.

LEADERSHIP & ACTIVITIES

University of Rochester Out in STEM (oSTEM) | Co-President Jan 2024 – Present

- Spearheaded pre-professional events such as resume workshops, graduate school application sessions, mindfulness discussions and faculty panels, annual Spring Speaker Event with 40+ members in attendance, and organized funding & travel to oSTEM national conference with 8-10 attendees.

University of Rochester Alpha Phi Omega, Mu Lambda Chapter | Secretary & DEI Chair Jan 2024 – Present

- Completed 100+ total hours of community service, participating in weekly service projects through local organizations such as House of Mercy, Rochester Greenovation, Toys for Tots, etc.
- Responsible for managing logistics such as booking rooms for chapter meetings & fellowships and maintaining calendar of all events throughout the semester, organized co-sponsorships with other student organizations.
- Organize DEI presentation & activities each semester, fostering equity & inclusion within the fraternity.

University of Rochester Eye to Eye | Chapter Leader & Vice President Sep 2023 – Present

- Led a team of 5-10 mentors, conducting weekly mentorship sessions for 10+ students with learning disabilities at Rochester Prep Middle School, totaling around 30+ hours of service.
- Educate community & share experiences on topics such as neurodiversity, metacognition & self-advocacy through art therapy & activities.

Mercy Health Clinic (Gaithersburg, MD) | Patient Intake Assistant June 2022 – Present

- Notate doctor-patient interactions, fill out patient referral forms, and schedule follow-up appointments.
- Obtain/record patient vital signs (blood pressure, temperature, glucose, etc.) in Electronic Medical Records.
- Conduct mental health screenings using PHQ-9 questionnaire and communicate in English & Spanish for primarily low-income/uninsured patient population.

Out For Undergrad (O4U) | Campus Ambassador March 2025 – May 2025

- Served as an on-campus connection between the University of Rochester & O4U organization.
- Hosted application hours & presentations about the O4U national conferences, reached out to departments & student organizations encouraging undergraduate students to apply.
- Recognized within the top 5 campus ambassadors for outstanding marketing & recruitment for the 2025 conference.

University of Rochester Office of Residential Life & Housing | First-Year Fellow Sep 2023 – May 2025

- Assist freshmen with navigating first year life, course planning, and academic resources on campus.
- Help plan events such as professor panels, destressing events, and study zone group sessions.

University of Rochester Chemistry Department | Teaching Assistant Jan 2024 – May 2024

- Led weekly workshops and office hours to review material covered in class for *CHEM 132: Chemical Concepts, Systems & Practices II* including quantum mechanics, bond theory, thermodynamics, kinetics, etc.
- Facilitated groups of students with example problems and approaches to understanding & visualizing concepts.
- Assisted with grading midterm exams and extra credit Infographic & Profile a Chemist assignments.

POSTERS & PRESENTATIONS

LLMs as Sociologists: Leveraging AI/ML Contextual Knowledge for Social Oppression

- Finger Lakes Science and Technology Showcase (Co-Presenter) April 2025
- URM C OBGYN Research Workshop 2025 (Co-Presenter) April 2025
- University of Rochester Lightning Talks Competition (Co-Presenter) March 2025

Assessing Compulsive Reward Seeking in a Mouse Model of Optogenetic Intracranial Self-Stimulation

- oSTEM Annual Conference Poster Expo October 2024
- NIH Summer Poster Day August 2024

Synergistic Effects of an HDAC Inhibitor, a Therapeutic Cancer Vaccine, and an Immunocytokine in an HPV Tumor Model

- University of Rochester Lightning Talks Competition March 2024
- University of Rochester Undergraduate Poster Expo March 2024
- oSTEM Annual Conference Poster Expo October 2024
- NIH Summer Poster Day August 2024
- NCI Center for Cancer Research Poster Day August 2024
